

Challenging traditional ideas of the string quartet,
The Section Quartet doesn't play classical music
- they only play rock & roll.

TSQ's own visionary arrangements and high-powered live shows have rocked audiences from their native Los Angeles to New York, London and beyond.

TSQ works with music's top artists and producers in the studio and on stage, including Foo Fighters, Kanye West, Maroon 5 and Christina Aguilera.

TSQ's ever-expanding live repertoire includes Led Zeppelin, Muse, The Clash, Yeah Yeah Yeahs, KISS and Soundgarden, + full-album re-creations of Pink Floyd's *Dark Side of the Moon* and Radiohead's *OK Computer*.
